

Mystic @ Home Activity: Patterned Rocks Snake Craft

Summary: Create a fun and colorful patterned rock snake!

Equipment:

- 12 black, flat rocks
- paint markers
- googly eyes
- red felt
- hot glue gun (adult supervision required)

Easy Step by Step:

1. Lay out all of your 12 black, flat rocks. Use your paint markers to draw patterns onto 11 of the rocks. We chose to make 3 different types of patterns onto our rocks. You can do as many or as little as you want. Let your rocks dry. It shouldn't take too long because the paint markers dry quickly.
2. Cut a snake tongue out of your red felt and use a hot glue gun to glue it on the end of your 12th unpainted rock. Then glue two googly eyes onto the snake head.
3. Lay the rocks in a pile and let kids get creative arranging them to make a patterned rocks snake craft.
