# Camp Descriptions:

**Week 1 Let's Go Camping:** Take a step into the great outdoors with a new set of friends. We will be exploring the woods with nature hikes and gathering items for art projects. Don't be afraid about getting a little bit dirty. What is camping without stories and s'mores?

**Week 2 Up in the Sky:** Is it a bird? Is it a plane? What could it be? We're going to keep our eyes on the sky and learn about what we can see in the day sky as well as what we might see at night. We'll enjoy making cloud art, coming up with our own constellations, and so much more. Everybody is a shining star this week at camp!

**Week 3 Under the Sea:** We will explore the beach but what goes on Under the Sea? Dive into the deep blue sea and learn about all the mysterious water creatures. This week we will be making our own jellyfish and bubbles.

**Week 4 Summer Games:** Let's go for the gold by JUMPING into the world of sports! We'll have a great time running, jumping, swinging, and kicking while learning how to play some familiar favorites. The best thing about it? Everyone is a winner! No Camp July 4th and 5th

**Week 5 Little Scientists:** Grab your lab coat! Let's explore the world around us to find out what is magnetic, what will sink or float, and what makes a shadow. Together we will find all the amazing answers.

**Week 6 Dinosaur Adventure:** Let's go back in time and discover amazing prehistoric creatures! We will have our own dino-dig, make our own fossils and even have a dinosaur egg hunt!

**Week 7 We Are Heroes:** Whether they're behind a mask flying high in the sky or wearing their safety gear at the local fire department, heroes are everywhere! So, what's your superpower? Come join us for a super week of camp learning about heroes. We'll design our own masks, practice some superhero yoga moves, and even get to meet a few of our own local heroes in person!

**Week 8 Aloha!** Not everyone can go to the beach this summer, so we will bring the beach to us. Sand art, hula fun and so much more.

**Week 9 Little Artists:** Art is not only paint and paper but EXPRESSION. We will explore musical instruments, movement and dance, and learn about creating 3-D art. Each child will create their own masterpiece.

**Week 10 Going Wild:** What can be seen through your binoculars? Lions, tigers and bears? Come by and we will prepare you for a journey of a lifetime. We will design safari vests, make our own binoculars and learn about all the wild animals of the jungle.
